The "NO LEMON" Money-Back Guarantee

You must be happy with your purchase or we will make it right to your satisfaction with a refund or exchange—your choice!

You can't put a price tag on friendship—just ask Troy Montoya, of Denver, CO. He gets offers almost daily from folks who want to buy his "little German friend".

Even though he could make a tidy profit, he won't part with his 1972 Volkswagen Beetle. When he spotted it in a small car shop, it was a sad sight to behold. Most people would have chalked it up as a lost cause, not Troy Montoya. Initially, he only planned to buy seat covers, but ended up purchasing a lot more from JC Whitney. "I was very pleased with my new covers, but I ran into a problem. My seats looked so good, I felt guilty about the rest of the car." He then bought door panels, a dashboard, carpeting, weatherstripping, bumpers, a headliner, mirrors, an antenna and much more. Look at our front cover to see the final outcome. Troy Montoya didn't do it alone, he had help from a lifelong friend, his dad, Cundo. "My dad is great, he loves Volkswagens". Thanks to father and son for sharing with us the true meaning of friendship.

CLASSIC VOLKSWAGEN BEETLES

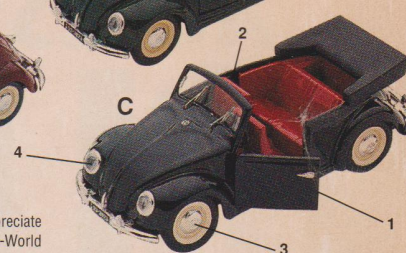

DISPLAY CASE

B

A

C

You don't have to be a Volkswagen fan to appreciate these faithful die-cast reproductions of the post-World War II classics! They're small (1/43 scale), but beautifully crafted with details usually reserved for much larger models. Details like doors that open and close (see 1 above), an impressive interior with folding seats (2), legible logos on the wheel covers (3), translucent headlights (4) plus an amazing undercarriage. The Beetle was a common sight on America's streets and highways not that many years ago, and these little replicas will help explain the phenomenal popularity of this classic. And what befits a classic more than its very own clear acrylic display case with removable base. Models measure approx. 1 1/2" wide, 3 1/2" long, 1" to 1 3/8" high.

HEAT SHIELD INSULATION STOPS NOISE & KEEPS HEAT OUT OF YOUR CAR, TRUCK OR VAN!

Laminated-on 3/8" thick fiber tech padding

Inside engine compartment

TWO layers of heat-reflective industrial-grade 99.5% pure aluminum

Under carpeting

On van walls

• The same technology developed by NASA to protect its spacecraft is available to protect YOUR vehicle against radiant heat!

• TWO layers of aluminum reflect 97% of radiant heat—a higher percentage than any other material!

• Reinforced with fiberglass mesh for additional strength

Insulate floor, door or side panels, engine compartment, firewall, headliner to block the radiant heat that can make

travel uncomfortable. Great under carpeting—fiber tech padding (laminated to the aluminum layers) helps deaden sound and adds a comfortable cushion underfoot. Durable padding is resilient (won't bottom out), mildewproof, moldproof and fire retardant. Conforms to FMVSS 302: "Flammability of Interior Materials". 48" x 72" sheet can be trimmed easily with scissors to any shape or size.

BEAUTIFUL, COMPLETELY CONTOURED PROTECTION FOR THE CARPETED AREAS IN YOUR VEHICLE

COCOA MATS

- Natural cocoa fiber allows air to circulate freely and moisture to evaporate quickly

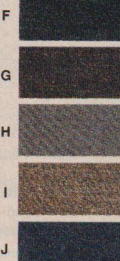

Comfortable, good-looking protection for your carpeting! Cocoa mats lie flat, won't curl at edges. Feels good under your feet, helps insulate against heat, cold and road noise. Trouble-free cleanups—just brush dirt off. Edges are bound with color-coordinated vinyl for durability and that final touch. Front mats have color-coordinated vinyl heel pad on driver's side. Choice of 5 COLORS FOR COCOA MATS ONLY: (A) Solid Black, (B) Solid Tan, (C) Dark Brown/Tan/Beige, (D) Red/Black or (E) Blue/Black.

CUSTOM-TAILORED SISAL & COCOA MATS FOR 56-83 VOLKSWAGEN, AUDI & PORSCHE

COCOA WEAVE

SISAL WEAVE

SISAL MATS

- Sisal is the WORLD'S STRONGEST NATURAL FIBER!
- Designed for beauty and long-lasting protection
- Super-tight weave captures dirt and grit...won't ravel, shred
- Breathable weave assures good airflow to aid evaporation and to prevent mildew and rust
- Permanent color retention...won't fade, bleed or stain carpet even when wet

Extra-strong and much more elegant than dealer-installed vinyl or rubber mats! Custom-tailored mats fit beautifully and install flat and smooth. Dirt resistant, mildewproof and freezeproof. Flameproof—a lighted cigarette won't ignite mat or burn through. Feels great underfoot while insulating against road noise and vibration. To clean, simply shake out or brush off mat. Edges are bound with strong, color-coordinated vinyl. Front mats have color-coordinated vinyl heel pad on driver's side. Sewn-in hook/loop fasteners secure driver's side carpet to floor. Choice of 5 COLORS FOR SISAL MATS ONLY: (F) Black, (G) Medium Brown, (H) Medium Gray, (I) Medium Tan or (J) Navy Blue.

'67 VOLKSWAGEN BEETLE REPLICA

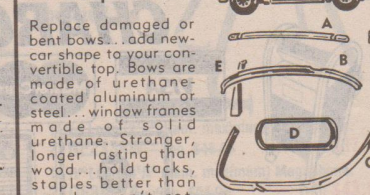

Remember the "cool" sixties? Tie-dyed clothes. That hot British singing group. Most importantly, everybody's favorite car—the Beetle. Maybe you had one or have always wanted one. Here's your opportunity to own the most beloved car of the era. It's the perfect way to take that trip down memory lane: 1/18 scale die-cast models are specially detailed to reflect the spirit of the original. The exterior has a high-gloss enamel finish. Open up the hood. Check out the engine compartment and trunk. Notice the realistic black and chrome running boards. Look at the wheels. The chrome hub caps have an authentic emblem. The rubber tires even have treads. Now open the doors and look inside. Turn the steering wheel. Like the chrome horn ring? While you're at it, fold forward the front seats. Little details make these replicas standouts in any collection. Models are approx. 8-3/4" long and include detachable display stand.

SAVE \$30 Reg. \$219.95 Now Only \$189.95 Each LIFETIME CONVERTIBLE TOP For Volkswagen

- Heavy-duty vinyl fabric top is SO STRONG WE WARRANT IT FOR AS LONG AS YOU OWN YOUR CAR!
- Wears like iron! Stands up to all the punishment you can give it & will still look new almost indefinitely!
- Computer designed to exact specifications of your convertible

This rugged convertible top remains new looking longer than any other top we sell! It will look great even after day-in, day-out exposure to the scorching sunlight...even after constant battering by ever-changing (and sometimes extreme) weather conditions. Top can be washed every day if you like without damage. (Cleans easily with nonabrasive soap, water.) Fade resistant. It will never shrink no matter how long it's on your car. Won't lose like-new look. Electronically welded exterior deck seams (similar to seams on tops of most expensive convertibles) assure strength and extra-long life; there's no danger of thread rot and splitting. Rear curtain includes heavy-duty zipper, where original. Complete with crystal clear plastic rear window...where original. **Note:** 58-69 Karmann Ghia includes plastic rear window. All other Volkswagen models are shipped without window

or cutout—use existing glass & frame. (The window will be the same size and shape as original.) Detailed instructions are included for do-it-yourself installation. You'll save 2 ways—on the price of the top and on the cost of installation. Colors (first is outside color/second is inside color): Black/Black; White/Black; Black/Tan; Tan/Tan. For all Beetle & Super Beetle and 58-74 Karmann Ghia.

REQUIRED INFORMATION: You MUST State (1) car make, (2) car year, (3) car model, (4) passenger capacity, (5) if door glass rolls up or if side curtains are used (sports cars only), (6) color desired (both outside and inside) & (7) stock number. Shipped separately from factory.

CAMBER COMPENSATOR For Volkswagen with Swing Axle

- Helps prevent the outer rear wheel from tucking in (folding up) during aggressive cornering that can result in loss of control and possible rollover
- Designed specifically for those older Volkswagen vehicles (with swing-axle rear suspension) that can't accommodate an anti-sway bar
- Improves handling & control to increase driving safety

Camber compensator is a steel leaf spring equipped with polyurethane axle pads on the outside of each end. The spring mounts to the bottom of your transmission (bracket, polyurethane pivot bushing included). Axle pads fit snugly against the bottom of the axle tubes. Won't stiffen up ride—stock riding characteristics are retained. With all hardware, instructions. For these Volkswagen: 60-68 Type I Beetle, Ghia; 60-67 Type II Transporter with Type I engine. Will not fit Volkswagen with independent rear suspension.

URETHANE FRONT END BUSHINGS For Volkswagen Axle-Beams

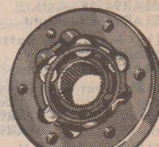

- Replace both inner and outer bushings with a 1-pc. bushing
- Wear like iron and are impervious to dust and other contaminants—far outlast stock bushings and needle bearings

Our made-to-last bushings are designed to help eliminate excessive front-end play, impaired handling and absorb the shocks that can damage torsion arms. They have flanged outer ends; **don't need stock dust seal.** Bushing replaces both inner and outer bushings. Set of four 1-pc. bushings, except ■ which includes two upper bushings (1-pc. inner/outs) and four lower bushings (separate inner and outs). For Volkswagen Beetle, Super Beetle, Karmann Ghia, sand rail and dune buggy with axle-beam front end. **Note:** Stock inner bushings can be very difficult to remove; however, you can use your punch or screwdriver to push them easily past the inner lip and into the axle tube where they won't interfere with the torsion arms.

- Total charges and remit payment.** If using a credit card, enter the card number, expiration date and issuing bank on the order blank.

HOW TO SEND MONEY: The best way to send money is your own personal check, post office money order, express money order or by bank draft or check. Returned checks may be subject to \$15.00 charge. Do NOT SEND CURRENCY OR STAMPS. Sorry, no C.O.D.'s accepted.

CANADIAN ORDERS— The prices in this catalog may be higher in Canada. All prices and the Shipping, Handling and Assured Safe Delivery in this catalog are U.S. Dollars. Please remit by check or money order payable in U.S. Dollars. Checks may be payable on: (1) a U.S. bank, (2) the U.S. branch of a Canadian bank or (3) a Canadian bank, provided Payable in U.S. Dollars is preprinted (not written in) on the check. You may also pay with credit card. Credit card charges will be converted from U.S. to Canadian dollars when your account is charged. We will call you for approval before we ship if shipping costs are excessive and subject to additional charge.

ORDERS OUTSIDE THE UNITED STATES (EXCEPT CANADA): There are 3 options available under which residents of other countries may order. 1. Provide a U.S. address to which we may ship your order. 2. Make arrangements with your local air freight carrier to act as your forwarder. 3. Send your order and we will obtain an air freight quote for you. Stock numbers ending in "E" or "FE" cannot be shipped. The total of your order, including Zone 8 Shipping, Handling and Assured Safe Delivery charges, must be prepaid. If actual charges significantly exceed our Zone 8 rate you will be advised of the actual charges before shipping. Air freight costs are collect. INTERNATIONAL FAX NUMBER: (312) 431-6095.

COMMERCIAL ACCOUNT TERMS of net 10 days are available to well-rated firms upon approval of our Credit Dept. Minimum commercial account order must be \$ 50.00.

PRICING POLICY—We guarantee to keep prices low! Although prices are subject to change, we will always make every effort to avoid increasing prices. Prices may vary in our retail store. We reserve the right to limit quantities.

INFORMATION ON TRUCK (FREIGHT) SHIPMENTS

Stock numbers ending in "E" or "FE" are too heavy or large to be shipped U.S. Parcel Post. We must ship these by Truck (freight) at your expense—(unless otherwise stated). See Stock Numbers ending in "E" and Stock Numbers ending in "FE" below, for further details.

Truck (freight) items cannot be shipped outside the continental United States (Hawaii, Alaska, Puerto Rico, APO, FPO, etc.). To assure delivery we must have a full street address and telephone number. Truck (freight) items cannot be shipped to a Post Office Box.

Truck (freight) rates vary based of type on merchandise, size, weight and destination. The charge will be NO LESS than \$42.00 with most charges in the \$50.00 to \$65.00 range. Note: \$50.00 to \$65.00 is the average; some rates may be significantly higher.

Examine your carton closely. If the carton is damaged, open before signing to inspect the contents. If damaged, refuse merchandise and describe damage on the truck delivery receipt. Please do not return damaged freight to us. Please feel free to contact our customer service department for further assistance.

STOCK NUMBERS ENDING IN "E". Charges on Truck (freight) shipments that are shipped from our warehouse are paid in advance by us. Since we are unable to compute the exact freight charge prior to shipment you will be billed separately for freight after your merchandise has been shipped. If you paid by check or money order you will receive an invoice for the freight charges. If you paid by credit card, your bankcard account will be charged for freight charges.

STOCK NUMBERS ENDING IN "FE". Factory truck shipments are shipped separately "FREIGHT COLLECT". You will be required to pay the freight charges to the carrier upon delivery of the merchandise because the item is coming direct from our factory.

AIR-COOLED

For Beetle, Super Beetle, Karmann Ghia, Thing, Bus, Transporter, Vanagon, Fastback, Squareback, 411 & 412 (Type 4)

DEFROST YOUR BUG!

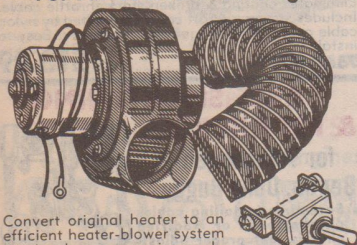

NEW!

The original defroster in your Volkswagen Beetle is pretty pathetic! It's simply not up to the job. Now there's help in sight! Here's a system that delivers so much airflow to your defroster, streamers will stand up from your air vents. It includes 2 fans that mount in the ductwork and are approx. 3 times more powerful than conventional booster-type kits. These fans eliminate the need to rely on engine RPM for blower output, 4-position, 3-speed switch (off, low, medium, full) puts YOU in complete control of fans' output. Plus, the patented method of drawing heater return air from your vehicle's interior significantly raises temperature level. Another benefit is the elimination of engine compartment fumes and road dust from the heater supply. Includes all necessary components, hardware, wiring, instructions. For all Volkswagen Beetle & Karmann Ghia.

81AR0502X—1-Kit **\$128.99**

DEFROSTER/HEATER BOOSTER SYSTEM

Replacement MUFFLERS & EXHAUST COMPONENTS

Custom made and engineered to exact factory standards. Special louver design breaks up noisy sound waves, resulting in a super-silent muffler with lowest back pressure. Heavy-gauge steel withstands extreme vibration, road shock. Inlet and outlet pipes are included as part of muffler, assuring permanent rigid suspension, high-quality long-lasting performance. **Note:** Location of the heat riser tube (see arrow) may be different on the replacement muffler; this will not affect the installation or operation of the muffler and heat riser system. **Note:** Muffler fresh air system for 60-62 vehicles without original fresh air system will be non-functional.

No More "Dead Batteries" for as Long as You Own Your Car!

PROVEN RESULTS IN MILLIONS OF MILES OF "ON-THE-ROAD" USE

Biggest Selling Battery Additive in America!

No matter how new or old your battery may be, it produces sulfation constantly...even when not in use. Sulfation (lead sulfate) is a regular chemical reaction that starts as a soft, spongy, greenish-white substance, then hardens and chokes your battery to death. You often see it even on the outside of the battery around cable connections. Sulfation is the number one cause of battery failure, and is the reason that 7 out of 10 batteries are thrown away "dead"—while they are still full of life, but checked for a free-flow outlet of energy. VX-6 dissolves sulfation in old batteries, prevents it from forming in both old and new batteries. That's why even brand new batteries have added life when protected with VX-6. Note: Will not correct a shorted battery due to a physical condition caused by freezing or overcharging! VX-6 in your battery improves starts in any weather, in any temperature from -40° to +160° F.

MAKE THIS FANTASTIC "PROVE IT" TEST YOURSELF

Add VX-6 to your battery, then with your ignition switched off, leave your bright lights on until the battery is so run down it won't start the engine or light the lights. Wait 3 minutes with headlights off, then switch on ignition and the battery will start your car with a surge of power that it has regained during that brief 3-minute interval. Net wt. 3 fl. oz.

- Used by over a million motorists
- One package is sufficient for one 6 or 12-volt battery

AUTOS, BOATS, LIFT TRUCKS

VX-6 is safe and effective for cars, boats, trucks and even industrial lifts. Just one package is enough for any automobile battery.

BEFORE WAX, DURA-GLO® MIRACLE CLAY. FOR THE FINISH OF A LIFETIME!

DEEP CLEANS & SMOOTHS IN JUST SECONDS!

The Secret to a Super Shine is an Ultra-smooth Finish! MIRACLE CLAY Magically Removes Impurities from Your Car's Paint!

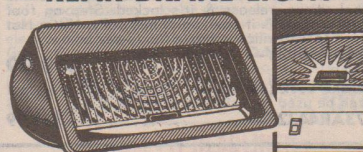

You just polished your vehicle. Finish is as slick as glass, right? Wrong! Just run your fingers lightly over the "clean" surface. Notice the bumps and rough spots? They're caused by rail dust, industrial pollutants, tree sap, insect residue, road tar, etc...and they're embedded in your finish. Thus, not only prevent you from achieving the kind of luminous shine your car deserves, they can actually make your paint deteriorate. In the old days, you used a rubbing/polishing compound to remove these "blemishes". For the finishes on today's cars, however, that approach would only lead to a new paint job. A liquid cleaner is probably too gentle to remove the impurities from the paint, so why bother with a time-consuming extra step? What's the answer? MIRACLE CLAY—an

amazing new discovery that's easy on your paint but tough on the foreign bodies in the paint. It will remove accumulated impurities (including light acid rain!) like a magnet. And, it's easy! First start with a clean vehicle. Flatten the MIRACLE CLAY into the shape of a cookie. Wet the surface of your vehicle with a soapy water solution and gently rub the clay across the surface. The impurities are gone, lifted out by the MIRACLE CLAY. Rinse and dry your vehicle—it's ready for your favorite wax, polish or polymer. Clay can be kneaded and folded and used again and again. Package includes two 4-oz. bars—enough to clean dozens of vehicles. Instructions.

SOLAR BATTERY BOOSTER for All 12V Batteries

Use the **FREE POWER** of the sun to keep your battery fully charged at all times!

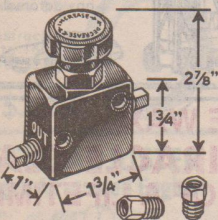

- Protects your battery against natural discharge even if you're parked for weeks or months
- Saves you money by prolonging battery life
- Prevents a dead battery that can leave you stranded
- So easy to use—mount charger anywhere it will get direct sunlight (dash, instrument panel, roof) and then plug it into your 12-volt cigarette lighter. Now it's easier than ever to always keep your battery at peak charge! The solar cells in this charger absorb the light from the sun and convert it into electrical energy. (Heavy-duty output: 40 MA maximum in full sunlight.) This prevents the natural power loss that occurs over time and the power drain caused by on-board computers, alarm systems and mobile telephones. Protected against overcharging and shorting—charger can remain plugged in at all times. Maximum voltage: 16 volts DC. Rugged, long-life unit is compact 2" wide x 9-1/2" long x 1/2" deep for easy storage anywhere.

Includes extra-long 38" power cord. **Note:** Will not charge a "dead" battery. Not weatherproof.
81AR3222A—..... Each **\$29.99**
HIGH-POWER Solar Battery Booster. Similar to above, but bigger output: **100-120 MA maximum in full sunlight.** Approx. 6-1/2" wide x 12-3/4" long x 3/4" deep. 49" cord. Each **\$64.99**
EXTRA-HIGH-POWER Solar Battery Booster. Similar to above, but produces **500 MA (approx. 7 watts).** Approx. 11-1/4" wide x 11" long x 3/4" deep. With 48" cord with cigarette lighter plug—can be wired directly into electrical system.
81AR3212W—..... Each **\$84.99**

ADJUSTABLE BRAKE PROPORTIONING VALVE

Controls Front-to-Rear Brake Bias

- Settings are easily adjustable (100-1000 psi) to YOUR individual vehicle and YOUR riding style!
 - Reduces brake pressure up to 60% over the full pressure range
 - A must for racers—brake bias can be adjusted to compensate for changing track conditions
- This valve restores the brake system balance that may have been altered when you (1) changed the size of your rear tires, (2) converted from rear drum brakes to rear disc brakes or (3) reduced vehicle's rear weight and desire less rear braking. Anodized billet aluminum valve mounts horizontally or vertically in the front-to-rear rigid brake line (between distribution block and rear flex hose). With two 3/16" brake line adapters.

In-line HYDRAULIC BRAKE LOCK

For All Hydraulic Brake Systems

- Holds ANY vehicle with hydraulic brakes (cars, trucks, fork lift, motor home, trailer, dune buggy, etc.) where you put it
- Supplements standard emergency parking. Eliminates strain on engine and transmission; removes all pounding on ring and pinion gears when trailering a second vehicle. Keep stick-shift car from rolling on hill while feet are on gas and clutch. Excellent for parking on steep grades. Uses line pressure of hydraulic system to hold brakes locked—step on foot brake, push brake lock down, release & it's locked. Step on foot brake again & it opens automatically. **Note:** Not for use with silicone brake fluid—see below.

LIFETIME CONVERTIBLE TOP

For Volkswagen & Porsche

- Heavy-duty vinyl fabric top is SO STRONG WE WARRANT IT FOR AS LONG AS YOU OWN YOUR CAR!
- Wears like iron! Stands up to all the punishment you can give it & will still look new almost indefinitely!
- Computer designed to exact specifications of your convertible

This rugged convertible top remains new looking longer than any other top we sell! It will look great even after day-in, day-out exposure to the scorching sunlight... even after constant battering by ever-changing (and sometimes extreme) weather conditions. Top can be washed every day if you like without damage. (Cleans easily with nonabrasive soap, water.) Fade resistant. It will never shrink no matter how long it's on your car. Won't lose like-new look. Electronically welded exterior deck seams (similar to seams on tops of most expensive convertibles) assure strength and extra-long life; there's no danger of thread rot and splitting. Tops are shipped without window or cutout—use existing glass & frame. Detailed in-

structions are included for do-it-yourself installation. You'll save 2 ways—on the price of the top and on the cost of installation. Colors (first is outside color/second is inside color): Black/Black; White/Black; Black/Tan; Tan/Tan. For the following cars: Porsche—51-75 All; Volkswagen—80-86 Rabbit.

REQUIRED INFORMATION: You MUST State (1) car make, (2) car year, (3) car model, (4) passenger capacity, (5) if door glass rolls up or if side curtains are used (sports cars only), (6) color desired (both outside and inside) & (7) stock number. Shipped separately from factory.

Beautiful, completely contoured protection for the carpeted areas in your vehicle

CUSTOM-TAILORED SISAL & COCOA MATS FOR 75-96 VOLKSWAGEN, AUDI & PORSCHE

COCOA

- Natural cocoa fiber allows air to circulate freely and moisture to evaporate quickly

Comfortable, good-looking protection for your carpeting! Cocoa mats lie flat, won't curl at edges. Feels good under your feet, helps insulate against heat, cold and road noise. Trouble-free cleanups—just brush dirt off. Edges bound with color-coordinated vinyl for durability and that final touch. Front mats have color-coordinated vinyl heel pad on driver's side. Choice of 5 COLORS FOR COCOA MATS ONLY: (A) Solid Black, (B) Solid Tan, (C) Dark Brown/Tan/Beige, (D) Red/Black or (E) Blue/Black.

SISAL

- Sisal is the WORLD'S STRONGEST NATURAL FIBER!
- Designed for beauty and long-lasting protection
- Super-tight weave captures dirt and grit...won't ravel, shred
- Breathable weave assures good airflow to aid evaporation and to prevent mildew and rust
- Permanent color retention...won't fade, bleed or stain carpet even when wet

Extra-strong and much more elegant than dealer-installed vinyl or rubber mats! Custom-tailored mats fit beautifully and install flat and smooth. Dirt resistant, mildewproof and freezeproof. Flameproof—a lit cigarette won't ignite mat or burn through. Feels great underfoot while insulating against road noise and vibration. To clean, simply shake out or brush off mat. Edges are bound with strong, color-coordinated vinyl. Front mats have color-coordinated vinyl heel pad on driver's side. Sewn-in hook/loop fasteners secure driver's side carpet to floor. Choice of 5 COLORS FOR SISAL MATS ONLY: (F) Black, (G) Medium Brown, (H) Medium Gray, (I) Medium Tan or (J) Navy Blue.

Majeto FABULOUS 1/18 SCALE DIE-CAST REPRODUCTION OF
THE 1951 VOLKSWAGEN BEETLE

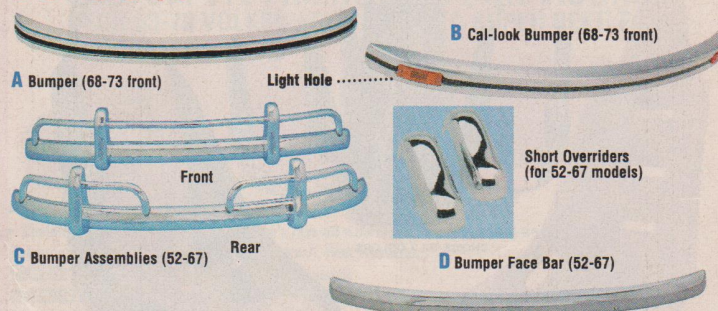

This Beetle incorporates the styling innovations (the chrome windshield trim, the Wolfsburg crest above the hood handle) that were new in 1951. It was just a few design steps away from the famous "Bug" with the single-pane back glass that went on to conquer America and the rest of the world in the late '50s and '60s. How best to capture a classic that has become a legend? With our superb replica. You don't have to be a Volkswagen enthusiast to know this one's special: (1) doors, trunk and hood open; (2) steering wheel controls front wheels; (3) whitewall tires with realistic treads and authentic emblem on hubcaps; (4) clear headlight lenses; (5) smooth, high-gloss enamel finish; (6) impressive interior featuring textured carpeting, door panels and upholstery and chrome door and window handles; (7) flip-forward seats. The undercarriage with its real spring suspension on all 4 wheels is the final authentic detail. The perfect companion to your other reproductions and memorabilia. Approx. 3 1/2" W x 3" H x 9" L overall. Show-worthy on its own detachable display stand with nameplate.
